

Pharmacist Suzy Cohen Reveals Secrets for Preventing Diabetes

By: J. D. Heyes, *Natural News*

Suzy Cohen, who is best known as "America's Most Trusted Pharmacist," is scheduled to speak at the [Reversing Diabetes World Summit](#), a free online health conference that begins May 5.

According to her website, Cohen says she uses her 22 years' of experience "to share the pros and cons of medication use as well as offer natural substitutions for most any of your health concerns."

"While I pride myself in 'thinking outside the pill' let me just say that I am still very proud to wear my white coat because I realize that there is a time and place for medications. We need to consider all of our options, and often, a combination is best," she said.

In addition to being a syndicated columnist and speaker, she is also the author of the books *The 24-Hour Pharmacist*, *Diabetes Without Drugs*, and a new, exclusive version of her original self-published title, *Drug Muggers*.

As for the summit itself, it will bring together many of the world's leading doctors, scientists and experts, who will share their intimate secrets for losing weight, getting fit, eating right and overcoming stress to beat the diabetes epidemic once and for all.

"Whether you've already been diagnosed with diabetes, were told that you have pre-diabetes, have a family history, or just want to make sure you don't get diabetes, this 12 day, power-packed summit will give you the ammunition you need to fight off the diabetes monster and win," says the summit website.

Once you register, you'll receive an "insider's pass" to watch 50 presentations of the world's leading doctors, nutritionists, diabetes coaches, authors, fitness gurus and experts sharing their best secrets and insights over 12 exciting, information-packed days. They promise to teach you how to stop just managing your condition with endless drugs, needles and finger pricking, and start to address the root cause of diabetes and high blood sugar.
